## Computer Ratings Final list for 2006 (updated 8 February 2007)

### 2006 events included

Townsville Classic	Far North Coast Open	UQ Open
Toowoomba Open	Rockhampton Open	Wynnum Open
Bundaberg Open	Queensland Senior	Brisbane Open
Townsville Open	Gold Coast Open	Mackay Open
Queensland Junior	Queensland Veteran ( <b>Team and knockout only</b> )	UQ Graded
Northern Queensland Cup		

### Key points on how the ratings work

- All results from singles events are entered.
- Your rating improves when you win a match and the amount depends on the difference between your rating and the loser's rating. The loser's rating will be reduced by a similar amount.
- The status of the event and the stage of the event are not considered.
- No weightings are given for playing more often as this reduces the accuracy of the list.
- The rating of new players is estimated as 1470 with a standard deviation of 280. This standard deviation reduces gradually as they play more matches.
- Standard deviation ( $\pm$ ) can be explained in simple terms by saying that the actual playing strength of a player with rating 1500 and uncertainty of 50 is likely to be between 1450 and 1550

Standard deviation	Accuracy
1 – 77	okay
78 – 99	estimate and not ordered
100 - 280	inaccurate and not published

### Purpose of Ratings

The ratings, rather than the order, are predictions of players' standard. Tournament organisers may wish to consider the ratings when seeding and grading players for tournament draws. To the right are suggested ceilings for each grade that can be used as a guide to grades that a player would normally be eligible for.

### Avoidance of Errors

In order to minimise the risk of error, it is important that running tournaments ensure the following.

- Put players first names in full at least once on the results sheets.
- Ensure that, if a match was not played, the score is indicated as a walkover (w/o).
- If a player forfeits during a match, the score is indicated. For example if a player withdraws when the score is 5-5 in the first game, the score is indicated as 11-5, 11-0. These will be in the calculations.

# Ratings Central: Ratings for the 21st Century

Local, Regional, and Worldwide Rankings; Easy-to-Use and Powerful Website;  
Instant Posting; High Accuracy

The purpose of Ratings Central is to make ratings more immediate and exciting for all table tennis players, while making it as simple as possible for event directors to submit events. To accomplish this, we have developed a state-of-the-art, fully automated, online rating system.

Regardless of whether your club currently has its own ratings or rankings, now you can use Ratings Central to produce ratings for your club, thus allowing your members to find out how they rank not only within your own club, but also in your state, country, and even internationally.

You can submit results from almost any type of event that you or your club runs, including tournaments, league matches, and club matches. There are no fees to submit results from table tennis events in North America to Ratings Central. In particular, there are no sanction fees, no rating fees, and no player membership fees.

Finding your new rating and those of your friends is simple thanks to our attractive, easy-to-navigate website that provides a wealth of information. Ratings and match results are easy to browse and copiously hyperlinked. There are a multitude of options for searching for and listing players, events, clubs, and matches. Your results will be posted alongside results from international competitions from many countries, including Sweden, Germany, Japan, and France.

Data entry is a snap thanks to the easy-to-use Windows apps that we provide (you can also use a Mac if you have Virtual PC): Click a button to automatically download a rating list from our website. Select the players that are playing in your event. To enter a result, click a button and highlight the names of the winner and loser. To submit the results to Ratings Central, click a button and the event is automatically submitted.
